Standard Family Groceries,

Everything Fresh and New!

Orders taken and goods delivered, Free of Charge.

Having had a thorough experience in the grocery line, I solicit a fair share of public patronage at my new store, on the corner of Third and Carson streets, two doors South of Wells Fargo office.

GEORGE MEYER.

ALL SORTS.

—Ladies' purses at Geo. Thaxter's.

—Miss Henrietta Nevers is quite sick.

—Recamier Cream at Thaxter's Drug Store.

—Hem-stitched Silk Handkerchiefs, twenty-five cents a piece, at Oleovich Bros.

—Maud Granger gave another excellent performance last evening to a fine house.

—Ex Sheriff Swift is reported as suffering from a relapse and his condition is much worse.

—Mrs. Alexander, wife of the Attorney General has returned from below very much improved in health.

—Dr. Bowers says he wants a new trial so he may introduce the testimony developed in the Ben-hayon case.

—T. B. Rickey is now able to sit up and swear when his boiled eggs are not done just right and he will be out in a few days.

—As a physician remarked the other day, San Francisco has the proud distinction of maintaining "the only underground hospital on earth."

—The wedding of Miss Susie Rising, daughter of Judge Rising of Virginia City, and York Vale is to take place the latter part of next month.

—A toilet luxury in every respect, Ayer's Hair Vigor never fails to restore the youthful freshness and color to faded and gray hair. It also eradicates dandruff and prevents the hair from falling.

—There was about an hour of good heavy snow-fall yesterday. Roberts and Latta pulled in the weather signals in time to save them from getting wet. The flakes were about the size of the signal flags.

—The enormous amount of six and a half tons of diamonds is said to have been extracted from South African mines during the last few years.

No wonder every hackman and even hotel clerks wear them.

—The big timber raft on the Atlantic ocean is making a great commotion. The cruisers sent out after it are afraid they won't find it and the ocean steamers are scared to death for fear they will, the owners are in a worse fix than anybody.

—Physicians prescribe Ayer's Sarsaparilla in cases of scrofula, and in every form of chronic disease, because this medicine is safer to take, and is more highly concentrated, than any other preparation. It can always be depended upon as an effective blood purifier.

—John Sherman, of Ohio, says of his reported withdrawal as a Presidential candidate, that while he has said nothing nor done anything to lessen the chances of Blaine's nomination or bring about his own, so far as Presidential matters are concerned, he is in the same attitude that he has always been.

—The stalwart Democratic journal, the Louisville Courier-Journal, is an out-and-out advocate of free trade. It is now demanding that Randall and other protectionists be driven out of the Democratic party. It certainly looks inconsistent for Randall to remain in the Democratic ranks. There is likely to be a great secession from the Democracy before the close of the Presidential campaign.

A Heartless Wretch.

The following from the Truckee Republican would indicate that the tar-bucket is needed in that place: A brutal husband, living on High street, got drunk and turned his nine children out of doors during one of the coldest nights of the past week. The man left town the same night for San Francisco, leaving his wife and family entirely penniless and destitute. They were actually without bread a few days ago. The sympathy of the kind-hearted people of Truckee should be proved by prompt assistance being rendered to this destitute family. The mother is a very deserving woman, but she cannot support the nine little ones who are dependent solely upon her labor for food and clothes.

YESTERDAY'S FIRE.

Chinatown Gets a Scorching.

At 3 o'clock yesterday an alarm of fire was sounded, which was occasioned by a fire in a building occupied by "Charley," a Chinese fish peddler. The Warrens were promptly on hand, and inside of five minutes had a stream on. Seven minutes after the alarm the V. & T. "Jimmy" glided up the track to within a hundred feet of the fire, and soon had a powerful stream on. At 12 minutes from the time of the alarm the fire was wholly subdued. One Chinaman tumbled out of the building with his cue burned off.

During the fire there was the continued explosions of cartridges in the building showing that Charlie is well heeled. The firemen worked with considerable promptness and the Chinese say that the "Melican man act fine." The loss was not over \$500.

How to get Rich.

The Stockton Mail in speaking of the rumor that a new paper is about to be started in Stockton, mentions the fact that most of the wealthy citizens of Stockton attained their condition of riches by being stockholders in syndicate newspapers. This is indeed a short and direct route to wealth as many of the leading citizens of Carson can testify.

The Mail says: It is well known that the best possible way to run a paper is through the agency of a Board of Directors, not one of whom is a newspaper man. By such an arrangement the pernicious influence of the odious "profession" is got rid of, and the craft sails away on a higher sea than is usually seen.

All that a syndicate has to do to start a paper is to purchase the necessary type, presses, office fixtures, etc., and rent a building. They at once begin to haul in money hand over fist.

The Stockton Mail is good authority on any subject and the same remarks about getting rich out of syndicate newspapers ought to apply to one place as well as another.

Both Feet Frozen.

One day last week Charles Reynolds attempted to walk from Maulette & Folsom's camp, near Lake Tahoe, to Truckee, a distance of about 18 miles. The snow was deep and the weather intensely cold. He lost his way but after a terrible experience he reached Truckee, where it was discovered that both feet were frozen. The Republican says: "The pain endured by the poor fellow while the doctor was dressing his feet was excruciating, but when the doctor cut off all the fleshy portion of a middle toe, with a snip of a surgeon's scissors, the man did not wince at all. The toes are dead, and will have to be amputated. The doctor is reducing the swelling of the feet and is waiting to determine how much has to be amputated. He hopes to save the greater portion of each foot, so that the man will not be unnecessarily crippled. Mr. Reynolds endures the pain like a hero, and considers himself fortunate to have escaped with his life from his terrible journey. He is a very intelligent, good looking young fellow, and is a stranger in Truckee."

Homicide at Cortez.

One day last week another fatal shooting occurred at Cortez, the third in three years. Juan Sevivo shot and killed Jose Ververos. The slayer was acquitted on his preliminary examination before an Austin Justice, where it was shown he acted in self-defense.

Magnificent Employers.

The Nevada Bank has given each of its employees half a month's salary as a Christmas gift. The San Francisco Stock Exchange has voted each of its employees a full month's salary as a bonus.—S. F. Call.

—Reno has declared a beer war. The beer is so bad down there that the dealers have to sell beer for almost nothing in order to get people to purchase. The dealers in Reno who sell Klien's beer do not reduce the price. The popular beverage manufactured in this city, cleaves its way wherever it strikes and pushes all inferior beer to the wall.

ALARM IN THE SOUTH.

The manufacturing interests of the South are taking alarm at Cleveland's free trade suggestions. The tenor of his message is well understood down there. Thus, the Mobile Register, the leading Democratic paper of Alabama, says his reasoning is precisely that of the Bright and Cobden school, who, as everybody knows, were the leaders of the free trade party in England. The Register finds that Cleveland's argument in relation to wool applies just as well to cotton, and remarks that "the free trader in cotton goods would find it rough sailing in any Southern district. We must give and take." After laying down some sound protection doctrine and pointing out the fallacy of the President's reasoning on the tariff question, the Register gives this strong intimation of the effects of free trade agitation upon the "solid South."

So far as the South is concerned, we deplore the introduction of the free trade argument into our politics. On that question the whites will divide in the future as they divided in the past, and the fear is that white unity, built up in the face of such dangers and distress as the world never before witnessed, will go to pieces and leave society in chaos.

Cleveland's free trade message gives promise to a great political change in the South during the coming year. The Presidential fight is to be forced on the tariff issue, and the South cannot be made solid for a free trade candidate.

PACIFIC COAST ITEMS.

—William C. Campbell, County Clerk of Tehama, committed suicide at Nevada City, Christmas.

—The capital stock of the California Southern Railroad has been increased from \$7,000,000 to \$10,000,000.

—Lafayette Hood jumped from a train one mile above Dixon Sunday. He was intoxicated and was killed.

—The last building of the old fort reservation, an old landmark at Monterey, was burned by an incendiary Christmas morning.

—The San Diego Bee is to have a new plant and will be edited hereafter by C. O. Zeigenius, a well-known journalist of San Francisco.

—The second trial at Modesto of Duncan Anderson, charged with murder, resulted with a disagreement. The jury stood three for acquittal and nine for manslaughter.

—George Williams the doorkeeper at Sheldon's Hall, Salt Lake, was seriously stabbed Christmas night by a drunken fellow who was refused admission to the hall.

—There was a rumor Monday at Salt Lake that a riot had occurred among the Welsh miners at Schofield, on the Denver and Rio Grande Railroad, about one hundred miles south of Salt Lake.

—Several young men at Moore's Flat, Nevada county Cal., went to Chinatown Christmas eve and attempted to capture the settlement. The Chinamen fired ten or twelve shots at the assailants and probably fatally wounded Blaze Sullivan, aged twenty-one. The ball entered his hip and ranged toward the spine.

—The Visalia Times advises farmers who live at a distance from the wood belt, and have to haul their firewood, to cultivate a half acre of Russian sunflowers. They grow to a height of eight or ten feet and a diameter of two to four inches. The stalks when dry make excellent fuel for kitchen use, and the seeds are valuable as chicken feed.

OLCOVICH BROTHERS. GREETING

—TO THEIR—

PATRONS AND CUSTOMERS!

Having sold out all our Surplus Stock at auction, we have decided to discontinue the same, and we are now prepared to sell our well selected and seasonable goods at Private Sale at Unusually Low Figures.

We invite our customers to call and convince themselves.

nov 18, 18
